U02 - Synthetic document source (page 1 of 2)

This is a synthetic PDF; no laboratory measurements are contained here.

Source identity: U02_PDF_SOURCE_A

Expected canonical contract: document.pdf

This text layer is deliberately selectable for later workflow tests.

Illustrative table: nominal sample IDs

Sample	Nominal	Unit
A	10.0	a.u.
B	20.0	a.u.

End of source page 1. Original PDF bytes are authoritative.

U02 - Synthetic document source (page 2 of 2)

Second page for future independent page navigation checks.

Source identity remains U02_PDF_SOURCE_A

This is a deterministic tutorial fixture, not a measured spectrum.

Second page: no OCR or figure analysis executed in U02.
